

Annual Report 2021

“We come to GRC because of the hands-on activities and lots of opportunities to be creative problem solvers. Also the wonderful teachers and the like-minded kids.”

“My son needs an opportunity to engage in activities that interest him and interact with other kids who “get” him.”

“They seem so inspired by not being rushed and getting to go into depth into topics. The teachers of American are legendary. The entrepreneur summer session was SO much better and satisfyingly than me having to help my kids run a lemonade stand!”

“Gifted students definitely need a place and a challenge. Too many schools are cutting funding for gifted programs, or not differentiating learning enough for the gifted students. Thank you for doing what you do!”

In 2021, GRC began coming back from the pandemic slowly, as programming started to increase from 2020 levels, with the exception of Academic Challenge Cup.

Summer Academies

**256
students**

Learning Labs

**227
students**

2021 Key Accomplishments

FINANCIAL INFORMATION
